

**Service is our passion.
International
accepted calibration**

Standard-compliant and internationally accepted.

The DAkkS is the national accreditation body of the Federal Republic of Germany. In accordance with Regulation (EC) No. 765/2008 and the Accreditation Body Act (AkkStelleG), it acts in the public interest as the sole service provider for accreditation in Germany. Only when a laboratory meets the accreditation criteria required by the authority may a calibration certificate be issued that is internationally recognized and valid.

Weiss Technik GmbH (D-K-20681-01-00) is accredited by the DAkkS in accordance with DIN EN ISO/IEC 17025.

We calibrate on your premises:

Direct-reading thermometers	(DKD-R 5-1)
Direct-reading thermocouples	(DKD-R 5-3)
Climatic chambers on site	(DKD-R 5-7)
Hygrometrie sensors	(DKD-R 5-8)

**Accredited calibration by weisstechnik®.
Your advantages:**

- Fast response time and free service hotline
- Free monitoring of calibration time intervals
- Better utilization of your equipment fleet through simultaneous calibration of several systems
- No measurement and control errors during calibration thanks to our trained personnel
- Prompt rectification of faults and completion of any necessary adjustment work on systems from weisstechnik® on site
- Reliability is our priority, i.e. we meet deadlines without sacrificing quality

We are there for you 365 days a year, 24 hours a day.

Our service technicians are excellently trained specialists. Our service teams are professionally competent and available at all times to provide you with reliable support in a spirit of partnership.

More safety from a single source.

Simply have an accredited calibration carried out as part of the annual maintenance and avoid unnecessary downtime.

In future, take advantage of our fast, uncomplicated and, above all, more cost-effective option to have your systems serviced, calibrated and adjusted.

We ensure trouble-free, calibrated and set-compliant operation of your systems!

Tested once, accepted everywhere!
