

## Flexible accreditation List of calibration guidelines

The Weiss Technik GmbH at the Reiskirchen location is accredited by the Deutsche Akkreditierungsstelle GmbH for the following calibration procedures with a flexible scope. This ensures that changes and innovations in calibration guidelines are implemented or applied as quickly as possible. The advantage for our customers is that calibrations are always carried out according to the latest state of the and calibration guidelines.

Enclosed is a list of the currently valid calibration guidelines that we use, with the respective editions.

### Thermodynamic measurands

Guideline / Procedure	Designation	Date of use	Revision / Issue status
DKD-R 5-1	Calibration of resistance thermometers	01.01.2024	Rev.0, 11/2023
DKD-R 5-3	Calibration of thermocouples	20.08.2021	Rev.0, 09/2018
DKD-R 5-7	Calibration of climatic chambers	09.03.2020	Rev.0, 09/2018
DKD-R 5-8	Calibration of hygrometers for direct measurement of relative humidity	20.08.2021	Rev.0, 02/2019

*On-site calibration only*
