

PRESS RELEASE

Eragny-sur-Oise, January 18th, 2022

CLIMATS AND SAPRATIN TECHNOLOGIES joined WEISS TECHNIK FRANCE on January 1st, 2022

While they have already been working together for many years, sharing their production sites and enhancing their complementarity, on January 1st, 2022, **Climats**, **Sapratin Technologies** and **Weiss Technik France** took new step in their common adventure by merging to become **Weiss Technik France**. The **Climats** and **Weiss Technik** brands remain, the **Sapratin** brand becomes **Weiss Technik** for the Services part.

With the **Climats** and **Weiss Technik** brands, **Weiss Technik France** offers the most comprehensive product portfolio of products in the world as well as unique technologie. On the other hand, thanks to this merger, the Services teams will be closer to the manufacturer's expertise and thus will continue to strengthen the unique quality of service in France.

"This merger naturally reinforces our strategy and our organization over the past year. This allows us to capitalize on our strengths and our complementarity, in order to be more efficient at the service of our customers" specifies Arnaud Brière, President of Weiss Technik France

This is a purely administrative merger, which has no influence on the product range, the strategy, the teams, or the quality of the service.

The great adventure of these 3 companies continues, stronger, together.

About Weiss Technik France, Climats and Sapratin Technologies

Weiss Technik is a world leader in environmental simulation, climatic chambers, ovens in the automotive, aeronautical, pharmaceutical, biological and e-mobility industries. Its French subsidiary **Weiss Technik France**, created in 1980, has gradually established itself in the territory thanks to its subsidiaries.

Climats, created in 1974, is the French leader in high-tech climatic test chambers. Climats has been a subsidiary of Weiss Technik France since 2005.

Sapratin technologies, created in 1950, is the after-sales service of the Weiss Technik and Climats brands, the specialist in maintenance and associated services for climatic test chambers. Sapratin technologies has been a subsidiary of Climats since 1991 and therefore of Weiss Technik France since 2005.

Weiss Technik France will now be a team of 240 people based in Eragny-sur-Oise and Martillac, as well as everywhere in France for after-sales service.
